

Associate Chapter Chartering Guidelines

The Associate Chapter process is one designed to build a strong, sustainable chapter of Phi Kappa Tau. In order to create a healthy chapter, Phi Kappa Tau has analyzed the best practices from active chapters and developed the following chartering requirements. When an Associate Chapter achieves the following goals they are eligible to petition for chartering to become an active chapter of Phi Kappa Tau.

The Borradaile Challenge is a standards program within the Fraternity wherein varying criteria indicate a quality Phi Kappa Tau undergraduate experience. Chartered chapters are evaluated on their performance in certain operational areas through a series of required reports. Within each operational area the standards are tiered into performance groups—Outstanding (excellent), Exceeds Expectations (above average), Meets Expectations (average) and Needs Improvement (unsatisfactory). The Associate Chapter chartering requirements are based on the Exceeds Expectations standard of the Borradaile Challenge.

The Associate Chapter's success is determined by their ability to set a variety of goals, show patterns of performance, hold members accountable, and achieve the goals that will complete the requirements. Associate Chapter's are encouraged to reach out to their Board of Governors (BOG), Associate Chapter advisor, campus fraternity/sorority life advisor and the Executive Offices staff for support to achieve the chartering requirements.

Membership/Recruitment -

| Overall: Associate Chapter must reach 100% or more of IFC average size. | Associate Chapter Size: IFC Avg: |
|--------------------------------------------------------------------------------|-----------------------------------|
| Overall: Associate Chapter must retain 80% or | |
| members associated post-start. | Members Associated since start: |
